

## Barbican Centre/Central London

**Client:** Guildhall School Of Music & Drama

**Contractor:** Sykes & Sons, London

### DEMAND

Renowned Music & Drama School located in the world famous Barbican Centre needed to replace aging domestic hot water generators as part of planned maintenance.

DHW required for showering and catering facilities in addition to background wash hand basin usage.

The requirement was to meet the existing heat inputs into the Citigen District Heating system on the primary side.

### SOLUTION

**2x ProRapid 500 Semi Instantaneous DHW Generators**

2x ProRapid units capable of supplying in excess of 3,000 litres of domestic hot water in the first hour were installed to meet the demand on this prestigious project.

The contractor and end user were delighted with the integral control of the units which enabled a pre-programmed legionella cycle to be ran weekly.
