

## Alexander Stadium/Birmingham, UK

**Mechanical Design Consultant:** Hoare Lea

**Mechanical Contractor:** King & Moffatt

### DEMAND

New main stand for a world class athletics stadium chosen to host the Birmingham 2022 Commonwealth Games.

DHW required for the athletes changing facilities, public washrooms, catering facilities and corporate hospitality suites.

Reliability and performance were key to the project given the prestigious nature of the project.

### SOLUTION

**6x ProRapid Semi Instantaneous DHW Generators**

**6 ProRapid units were supplied in a variety of capacities and performances to provide DHW to all areas.**

The design consultant was impressed by the small physical footprint for such large outputs.
